Succession within the company

2 Days

The participants learn that an early settlement of the succession is of vital importance for the business.

The participants learn that succession and transfer are normal within the life cycle.

The participants learn good and bad examples.

The participants develop a clear conception how to settle the succession of their businesses and back it.

- Succession as a survival criterion
- Succession as a normal process
- How to manage mentally to let go and trust
- Find the right successor
- Family tree: yes or no
- Succession planning
- Succession strategy
- Action plan

Target Group

Owners, Managing Directors and Junior Employees in family businesses that want to settle the succession.

Comments

It's always astonishing that only few companies settle the succession. A subject that will very often be pushed away, repressed and gets lost in the everyday business. This seminar shows succession as being a normal process within a company's life cycle.

Following we offer coaching.
