Training for moderator for Continuous Improvement Process (CIP)

3 Days  
  
1 day workshop

You master all moderation and CIP techniques to make a (CIP) team work, to keep it working and to gain usable results to an extremely high degree.  
  
You understand to integrate difficult team members and to use their constructive potential.  
  
You are able to implement CIP as a process for continuous improvement whereat you win the acceptance of management and employees.

- Basics of communication in and with groups
- Integration of difficult employees
- Moderation tools
- CIP techniques
- Handling of disturbances during the CIP meetings
- Necessary basic conditions for successful CIPs
- CIP projects and philosophy as an profit earner for companies, CIP moderators and employees
- Exchange of experiences

**Target Group**

Executives that accompany and control transformation processes and lead to results.

**Comments**

A positive basic attitude to teamwork and an extensive acceptance of the prospective CIP moderator by the employees is necessary. No basic knowledge required. A CIP moderator can be booked by the TGM Life Cycle Group for special in-plant problems that are suitable for a CIP process.
